for additional information.

## **Bulb experts in the San Lorenzo Valley have chosen some more, great narcissus for you!**

They will grow and bloom readily in your yards or on your decks. We were especially thinking of drought resistance and fragrance when we selected a mix of 8 different gopher and deer-proof varieties of daffodils, packed in bags of 50. Plant in the mellow days of fall after the first rains moisten the soil for effortless beauty in your garden, landscape and in your flower vases next Spring. At our house, it's a day-after-Thanksgiving tradition to plant bulbs, with the entire family helping. Dig 10 holes – set 5 bulbs in each hole! Work over, rains come, spring flowers guaranteed!

We are also selling gift kits of velvet red and angel white amaryllis, and sweet scented Paperwhite Narcissus that will arrive at the end of November so they'll be in great shape for holiday giving.

Fill out the order form on the back of this insert, or visit our website ([www.vwcweb.org](http://www.vwcweb.org)) for a PDF of the order form. Deadline for orders is Sept. 30. Daffodil collections will arrive in Boulder Creek in mid October; Paperwhites and amaryllis arrive in late November so they won't sprout too soon, and we'll contact you for pick up dates and locations.

Support the VWC and bring gorgeous bloom to your home and neighborhood, and into the lives of your family and friends.

—Beth Benjamin
